OVERVIEW

Tricia Holderman is Owner, President and CEO of Elite Facility Systems and its subsidiaries Elite Home Services, targeting the luxury home market, and Cleaning Supplies and Solutions, featuring just-in-time products and supplies for small businesses.

Elite Home Services, a 35 year old housekeeping company, maintains homes for the pickiest clientele in the Dallas Fort Worth Metroplex. Elite Facility Systems specializes in cleaning Medical, Dental and Healthcare Facilities, with offices in Dallas and Richmond, Virginia. Ms. Holderman is internationally recognized as one of the leading authorities in the healthcare facility industry and has provided best practices training and consultation throughout the United States, Europe, Russia, India, and the Middle East.

In addition to her business schedule Ms. Holderman has taken time to support more than 40 organizations including Junior Achievement and Leadership Dallas. She has served on many boards, including Products Advisory Board of Proctor and Gamble, National Board of Crohn's and Colitis, and was International Coordinator and VIP Liaison for the highly successful Women's Peace Conference in Dallas, Texas.

Tricia is a Crohn's disease survivor, withstanding over 50 surgeries (in addition to minor heart attacks): 5 (five) hip replacements and several ileostomy and intestinal surgeries. She has put her health issues to good use by helping her clients understand the patient point of view which is becoming increasingly more important in healthcare settings. She has been involved politically, campaigning for state office and helping elected officials understand small business and health issues.

Success magazine awarded Ms. Holderman the Greatest Business Comeback and featured her on its cover; in 2009 she was awarded the Spirit of Texas Small Business Award by the Greater Dallas Chamber of Commerce. She has appeared frequently in print media and on numerous television shows in Dallas.

Ms. Holderman has been self employed since she was 17 years old.

- C-Diff
- MRSA
- Fungal infections
- CRE Bacterial infections
- Mononucleosis
- Measles, Mumps
- VRE
- Lyme Disease
- Norovirus
- TB
- Pertussis
- Entovirus
- Staph
- Meningitis
- Legionnaires Disease

AREAS WE HAVE WORKED

- **HURRICANE KATRINA / 2005**
When Hurricane Katrina displaced over 1000 people to the Reunion Arena, I was a part of the team keeping the facility clean.
- **TRANSPORT VEHICLES**
Created protocols for cleaning transport company vehicles, including airplanes, helicopters, and ambulances.
- **HOSPITALS AND EMERGENCY ROOMS / 2012**
Created the protocols and procedures for cleaning an hospital unit with an aspergillus outbreak, including long term and hospice patient areas.

In January of 2014 a hospital in Virginia had the entire operating suite (preop, postop, waiting rooms, operating rooms, etc.) shut down by health department for a Norovirus outbreak. I was hired to redo the cleaning. We had the operating suite sanitized, passed inspection and open for business in less than 24 hours.
- **NFL TRAINING FACILITIES / 2013**
infection prevention officer for an NFL football teams training camp, keeping the players safe from germs in the training rooms, showers and weight rooms.
- **MEDICAL AND DENTAL FACILITIES**
- **SCHOOLS**
- **OUTPATIENT SURGERY CENTERS**
